MAR 4 1940

All of our plants are grown in pots and are not merely rooted plants, but have been in pots all this season and are ready to plant when you get them. Absolutely no Nut Grass in our plants. Neither do we bed any plants where there is any Nut Grass. We do not have any in our fields.

300 hundred or more of any one variety at the thousand rate, but not assorted lots take the thousand rate.

PYRACANTHA ATALANTIODES U. S. D. A.

No. 80408

Upright grower with crimson berries that stay on the plant until in March, one of the very best that you can grow, has blooms in the spring like bridal wreath..

When you sell your customer one of these plants with the berries on it, all of the neighbors will be wanting some just like it.

We have these plants well established in 2 in. pots, some few of these have berries on them now.—\$10.00 per 100,—\$100.00 per 1000.

HENDRIX & GLASS

Farmersville, Texas

We have been growing Liners in Pots longer than anyone in Texas. Come and get the plants while you are here. Ask your neighbor, he knows our plants.
